NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Fidelis SecureCare of Michigan Inc. are presented on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance.

Fidelis SecureCare of Michigan Inc is licensed and domiciled as a Health Maintenance Organization in the State of Michigan. The company is authorized to write Medicare business as a Medicare Advantage plan. The State of Michigan Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of a Health Maintenance Organization, for determining its solvency under the Michigan Insurance Law. The statement has been completed in accordance with the NAIC *Accounting Practices and Procedures Manual*. In NAIC SAP, some assets, such as prepaid expenses are not admitted. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Cash and Cash Equivalents – Cash and cash equivalents include highly liquid investments that are both readily convertible to known amounts of cash, and so near to their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash includes savings accounts, and certificates of deposits with original maturities of three months or less. Cash equivalents are short-term investments that include investments with remaining maturities of greater than 90 days, but less than one year at the time of acquisition.

Bonds – Investments on bonds are carried at amortized costs. Bonds are amortized using the effective interest rate method. The amortized cost and estimated fair value of bonds as of March 31, 2013 are as follows:

	Amortized Cost	Unrealized Gain(Loss)	Fair Value
U.S. Gov't. obligations	\$528,976	\$310	\$529,286

The statutory carrying value and the fair value of the bonds at September 30, 2012, by stated maturity, are shown below. These bonds are held in trust as required to be deposited in restricted accounts for member's protection pursuant to federal and state regulatory requirements.

	Amortized Cost	Unrealized Gain(Loss)	Fair Value
Due in less than 1 year	\$528,976	\$310	\$529,286
Due in one through five yrs	\$0	\$0	\$0
Due in over five years	\$0	\$0	\$0

In December 2003, the Emerging Issues Task Force ("EITF") issued EITF 03-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments. EITF 03-1 specifies certain quantitative and qualitative disclosures for debt and marketable equity securities classified as available for sale or held-to maturity and where costs exceeds market value at the balance sheet date but for which an other-than-temporary impairment has not been recognized. As of March 31, 2013 the fair value of securities, \$529,976 was more than its book value (amortized cost) by \$310 for US governments due to mature in less than 1 year from balance sheet date. The book value (amortized cost) of these instruments as of March 31, 2013 is \$528,286.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Health premiums are earned monthly over the terms of the related insurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity, and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the constant yield interest
